

THE GLIMMER TWiNS

A Classic Rolling Stones Experience

Optional Multimedia Video Presentation-

The Glimmer Twins have added a self contained retractable video projection system for use at certain venues with additional requirements. These videos open the show and are also placed in between occasional songs to provide an additional level of entertainment for the audience. The projection itself is about 100” in diameter and under correct operating conditions can provide quality viewing for all patrons within approximately 150 feet.

Requirements:

- 1) Cannot be used in “Daylight” conditions.***
- 2) Requires “House Lights Down” condition so lighting tech must be used (venue supplied).***
- 3) If outdoors, stage area must be completely covered.***
- 4) At least 5’ of space must be available behind drummer’s stool (or Drum Riser).***
- 5) Stage covering or ceiling if indoors must be at least 12’ above stage floor.***
- 6) Cannot be used with the “Small” stage dimensions (see page 3).***

If interested please contact management or band within 30 days of engagement.
